TENDABOX

- ★ FULL CASSETTE PROTECTION
- ★ IDEAL BOAT DECK APPLICATION

The full cassette **Tendabox** folding arm awning offers a slim-line design that is the ideal architectural compliment to any home or business.

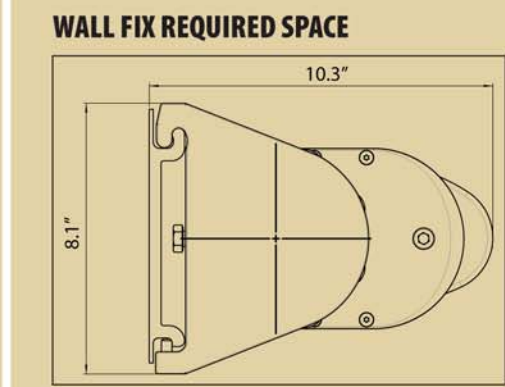

The compact dimensions of the system with a completely sealed housing makes it especially suitable for wall or soffit mounting on patios, decks, large balconies, and even boat decks.

Mounting brackets on each end of the system make the installation quick and easy. A lateral rotating mechanism allows for very steep pitch capability.

The elegant cassette with brush sealing on the top and bottom protects the awning against wind and weather when retracted thus guaranteeing a long life to the overall system.

Automated motors and electronic comfort controls are available.

See **Resobox** for larger full cassette applications
