# TARGA

★ FLEXIBLE GUIDE RAIL PLACEMENT

★ SIMPLE TRACK BRACKET INSTALLATION

## TOP VIEW

The **Targa** model is an elegant solution for shading large terrace and exterior trellis structures. The high quality aluminum profile system has adjustable positioning of the guide rails to accommodate the structure below. Additional rail(s) can be added for larger applications and thus even shade special shaped or inclined conservatories.

The fabric protecting cassette box is self-supported by the guide rails mounted on track brackets to the existing structure. The struts have integrated lateral gas piston/cable operation for constant and perfect tensioning of the cover. A choice of track brackets allow for flexible and easy installation even on a complicated structure.

The optional **Targa Plus** setup includes telescopic guide rail capability extending past the main track to provide an additional 55" of cover shading.

Optional Remote Control Motors and electronic sun and wind controls available

## PRODUCT SPECIFICATIONS

<b>Linear Width</b>	2'9" – 19'8" (2 guide rails), 23'0" – (3 guide rails)
<b>Projections</b>	3'7" – 19'8" (2 guide rails), 23'0" – (3 guide rails)
<b>Frame Finish</b>	Polyester Powder Coated
<b>Frame Colors</b>	White <input type="checkbox"/> Custom Colors - <i>Upcharge</i>
<b>Mounting Options</b>	Track Brackets to sub-structure
